

Allergy Awareness & Management Policy

1. Policy Statement

Create, Imagine and Learn is committed to providing a safe and inclusive environment. We take allergies seriously and aim to minimise the risk of allergic reactions.

2. Allergy Information

Parents/carers must declare any known allergies before attending sessions. Allergy details are recorded on registration forms and must be kept up to date.

3. Sensory Play Materials

Food-based, taste-safe materials may be used. Ingredients are clearly labelled and shared where possible. Alternatives will be offered where reasonably possible.

4. Risk Reduction

Equipment and surfaces are cleaned before and after sessions. Hand washing is encouraged. Cross-contamination is minimised through careful preparation. Parents/carers remain responsible for supervising their child.

5. Emergency Procedure

If a reaction is suspected, the session leader will respond immediately, alert the parent/carer, and call 999 if symptoms are severe. Parents administer prescribed medication. An incident record will be completed.

Responsibility

While reasonable precautions are taken, an allergen-free environment cannot be guaranteed. This policy is reviewed annually.
